

DONJOY® CLIMA-FLEX™ OA

Sleek design and innovative technologies in order to provide comfortable off-load and pleasant skin climate for patients with Osteoarthritis

NEW

3-Point Off-Loading System

Stabile hinged stay, adjustable hinge, leg shells and wraparound design can offload perceptibly

Good adaptability

by thin and elastic C-6 fabric

Easy-to-use for additional offloading

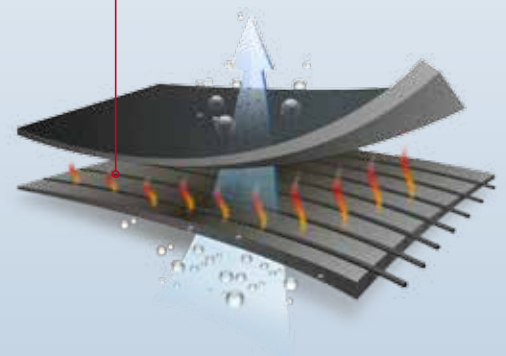

Keyless, dual dial telescopic hinge to support individual offloading

Modern C-6 Fabric Technology

delivers moisture-wicking and temperature comfort

Comfortable fit

Wide inside semi-rigid leg-cuffs for safe and comfortable fit

Patients with Osteoarthritis desire a brace that will provide significant pain relief and improved mobility, combined with the demand for wearing comfort and ease of use. The new DONJOY® CLIMA-FLEX™ OA knee brace combines the well-tried 3-Point Off-Loading system with a comfortable and sleek design. The

compressive load is shifted away from the affected compartment what can alleviate OA pain. A new, easy-to-use integrated dual-action dial allows the hinge adjustment for individual offloading. The thin elastic C-6 fabric provides moisture-wicking and temperature comfort.
